Sorry to bother the 2nd Circuit of US Appeals once again. We are 3 months into working on appealing the detention hearing. None of the deadlines that I were told were important throughout these 3 months clearly even matter at all. If they can't follow their own ^{own} ^{rules}, why should I be expected to be an obedient little criminal court ^{3:23} ^{3:23} ^{3:23} one more day? Katie [REDACTED] is a defendant in civil case number 26-cv-00181. So why is Sr Eldridge the prosecutor letting her listen to my Monroe County Jail phone calls? This is a conflict of interest and it is an obstruction of justice against ME. The Rochester Federal Public Defender's Office has a copy of the confidential legal mail envelope John Sinatra's courtroom sent me. Imagine being put in jail by somebody who then sends you all kinds of things in the mail in a format that makes it so the prosecutor can't see it.

50 months of my existence are now gone over emails and letters. I'm supposed to celebrate the 250th this year? Fuck the 250th.

There is nothing stopping me from saying my phone was hacked and that I was allowing kids in the back of the car while driving for Sky Homes Medical Transportation to play Angry Birds on my phone, so I don't know what kind of fake emails and fake social media profiles they were using without my knowing. There is nothing stopping me from saying at the January 30th court hearing I was not present for, the magistrate from Syracuse tampered with December 2025 indictment and arraignment papers and then he said out loud in the courtroom "Fuck the Speedy Trial Act and Speedy Trial Rights ~~altogether~~, keep these assholes in there forever". There is nothing stopping me from saying that the Rochester Federal Public Defender's Office is absolutely aware that Katie [REDACTED] had access to John Sinatra's

Will I ever get to use emails, social media, and iPhones in general like a normal person ever again? Freedom of Speech to say how much I hate the United States, Freedom of Speech to say I hate the 250⁺, Don't criticize letters when they come from a hostage. John Sinatra also admitted to Katie (his secretary) hacking my phone over confidential legal mail,

emails, that Katie is behind the confidential legal mail that was sent to me, and that the confidential legal mail contained receipts for Cashapp payments made to frequent members of grand juries, copies of papers concerning John Sinatra's relative Peter Gerace's involvement with Jeffrey Epstein, as well as a signed statement concerning John Sinatra's resignation and his signed referral that Katie [redacted] be interviewed by the Senate Judiciary Committee to take his place.

Here's the good news. Victoria W. Bahl is aware of a planned Buffalo Olive Garden day so all the grown adults of this 50 month long issue can sit down and talk. I will need police protection since Katie is violent.

My 2 year long probation violation that Tim Murphy worked on in the 2nd Circuit of US Appeals went on for all of Israel and Hamas. Now Iran is what's going on. Everyone familiar with my situation is aware of Benjamin [redacted]'s Hamas issue's attachment to my stuff.

I am sick of even thinking about Benjamin [redacted]. I knew him for 2 weeks 6 years ago. If Genesis 41 is truly a thing once a month for the last year it's me and someone from Hollywood in a dream. I think winding up with someone from Hollywood would be a great middle finger to the last 50 months knowing Benjamin [redacted] did to me.

By the way I want a Constitutional lawsuit against the Buffalo FBI for Cruel and Unusual Punishment violations since December 2025 at the Family Dollar of Salamanca parking lot, they pointed guns at me over a non-violent speech "crime" committed with no witnesses present. Fire the Buffalo FBI and make them all go risk their lives in Iran. Jay Oustavitch wants this case DROPPED.
