Hello again,

I hope there comes a day when I can bring you and Kellen Quigley of the Olean Times Herald together for a good positive interview. If rural people like those who live in Cattaraugus County are constantly informed on a more personal basis of what their 2nd Circuit of US Appeals officials think, we won't see anything ever again like the 2022-2024 rise in crime. I continue to feel like I am one of many from Kellen is one of many people I have an otherwise positive rapport with before criminal court ever happened to me. How nice to see a NYC based US Appeals Judge sit down with Kellen for an interview at a place like Pumpkinville or Holiday Valley.

Unfortunately we are not there yet, Sean Eldridge's paperwork on me is a slap in the face over everything. I was told on January 30th from Victoria Bahl herself, Defense and prosecutors talk and they include the judge. I am not naive. Well normally I, someone who was very happy to be social with state level legislators before this ever happened to me, am happy to hear that a court gets along, well not if the end result is me feeling like they are all working to hold me like this forever. I am more than happy to say that they can't deny that Sean Eldridge allowed Katie [REDACTED] to listen to my Monroe County phone calls while I have a lawsuit against Katie in L Vilad's courtroom. Victoria offered to help get Katie finally arrested for grand theft auto way back in January. So far, nothing, my mother accomplished more in the name of gathering evidence and someone helped Katie get in with Monroe County Sheriff's Office so she could do what she did two years ago all over again, forge my handwriting and act like she lost the content. She got a cease and desist

against me as if I'm the problem. She is the crime of violence problem, Tim Murphy of Buffalo can show you the pictures of my house's damage

Katie wrote Sean Eldridge's papers on me.

Whether the first week of May we follow through on what Victoria said to my mother on February 23rd what should happen the first week of May, or whether there's a surprise attack behind the scenes before court and the Buffalo FBI agents who pointed guns at me December 2025 over a witness exempt speech crime are there to point guns at me again and force me to plead guilty, it appears I will only be safe in this world ever again if I add John Sinatra to himself to the list of codefendants in the courtroom of L. Vilardo. Again, what was said over that December 2025 email I don't remember sending? Let me check; "How about I sue John Sinatra", Yeah 4 months later, how about I sue John Sinatra in L. Vilardo's courtroom where John's relative Peter Gerace got sentenced, Constitutional lawsuit, Free Speech rights everyone else gets to have on the internet that I apparently have to fight for like nobody else does. A high school dropout leads NASA and we just went to the Moon. Put a high school dropout in John's position.

This will all go to the US Supreme Court if it's the last thing I do.

P.S., "Life, Liberty, & the Pursuit of Happiness", "No Cruel & Unusual Punishment", don't forget the Elastic Clause - looks like life sentences to prison are unconstitutional. Hopefully I don't get arrested for the rest of my life over electronic communications speech.
